

The construction site calendar

Construction sites at a glance

Managing construction site messages easily.

With the help of the **BMK** construction site calendar, you have the possibility to keep an eye on **construction site messages (FPLO's and ZvF's)** for your railway business and to integrate them into your **timetable planning**. These advantages result in enormous **savings of time and money**.

With the BMK, you can always keep an eye on construction sites and make your planning more efficient in this respect.

Advantages

- ✓ Clearly arranged visualizations of all construction site messages, that ease your timetabling
- ✓ High savings of time and money, since all relevant information is already available in the BMK and thus any research work is omitted
- ✓ Uncomplicated handling of the BMK with a maximum benefit for your railway business company

Features

- ✓ Transparent table view of the timetable arrangements for an uncomplicated planning process
- ✓ Plan arrangements highlighted in color, according to the timetable status
- ✓ Compilation of the sales and marketing consequences in different detailed views
- ✓ Address book for relevant contact details (f.e. contact person, responsible persons etc.)

The catkin GmbH

We have been developing and implementing customized communication solutions in the B2B sector since 2013. With our catkin communication portal we mainly support industrial and transport companies. With the help of our modern software technologies, our customers especially design their logistics, but also other business areas, in a transparent and secure way.
