

# „ catkin is your central order platform “

catkin for operators/shipping companys and container truckers

## catkin for operators / shipping companys

Trucking-organization at all locations

- ✓ Easily integrate all trucking service providers at all locations into your processes via catkin.
- ✓ Always get the same order feedback quality from regular as well as adhoc service providers - automated via catkin.
- ✓ You receive order status and track & trace information automatically via catkin.

## catkin for container truckers

All orders ia one portal - catkin

- ✓ All order data of different clients are transferred via the central portal catkin - immediately via web or directly into the own forwarding system.
- ✓ Order feedback is automatically transmitted to the client via catkin.
- ✓ Your drivers can use the catkin app free of charge. This way your drivers are integrated into the order processing and track & trace requirements can be handled easily.

- ✓ As a central order platform, catkin reduces the number of necessary interfaces between you and your customers or service providers - immediately and sustainably.
  - ✓ catkin offers you immediate access to an already existing ecosystem.
  - ✓ The catkin platform is specially developed and optimized for combined transport.

## The catkin GmbH

The catkin GmbH We have been developing and implementing customized communication solutions in the B2B sector since 2013. With our catkin communication portal we mainly support industrial and transport companies. With the help of our modern software technologies, our customers especially design their logistics, but also other business areas, in a transparent and secure way.
